A Railroader Speaks.

My wife has been a great sufferer from Catarrh. Several physicians and various patient medicines were resorted to, yet the disease continued unabated, nothing appearing to make any impression upon it. Her constitution finally became implicated, the poison being in her blood.

I secured a bottle of B. B. B. and placed her upon its use, and to our surprise the improvement began at once, and her recovery was rapid and complete. No other preparation ever produced such a wonder-liul change, and for all forms of blood disease I cheerfully recommend B. B. R. as a superior blood purifier. R. P. Longs.

An Artist in Human Hair.

Mrs. M. Rodner, of Memphis says of "La Creole Hair restorer:" "I have used it myself and furnished my customers with many dezen bottles. It stops the hair falling out, restores its óriginal color and does not stain the skin or soil the clothing. It is a delightful dressing, cures diseases on the scalp and keeps the hair free from dandruff. In a word, it seems to be nature's remedy for supplying the wants and loss of vitality in the human hair. My customers are delighted." For sale by druggists. Prepared by the Mansfield Medicine Co., Memphis, Tenn., who also manufacture the celebrated "Magnetic Arnica Liniment," "Hungarian Balsam for the Lungs" and Mansfield's Chill and Fever Tonic." "From my long personal acquaintance with and knowledge of high standing in this community of the gentlemen composing your Company, and from my personal acquaintance with and knowledge of the high character and professional ability of the physicians who recommended your medicines, who are among the oldest and most respected of our physicians. I have no question of the purely medicinal character of your compounds and am satisfied they should be classed as medicines, and that those selling them should not be required to pay a liquor dealer's license. You should be careful to instruct all persons handling your goods that they are medicines, and are not to be add or handled or used as alcoholic intoxicants of beverages; as they are not intended to be used as such, but as medicinal remedia."
